August 11, 2017

- 10:00 a.m. Introductions and Objectives of the meeting – Steve Ashby, NGI
- 10:15 a.m. Dauphin Island Sea Laboratory – Renee Collini, Brian Dzwonkowski, Hunter King
- 10:45 a.m. Alabama Department of Environmental Management – Joie Horn and Clark Gerkin
- 11:15 a.m. University of Southern Mississippi – Scott Milroy
- 11:45 a.m. Working Lunch (Catered) - MDEQ (TBD)
- 1:00 p.m. Louisiana Coastal Protection and Restoration Authority – Angelina Freeman
- 1:30 p.m. Lake Ponchartrain Basin Foundation – John Lopez
- 2:00 p.m. US Environmental Protection Agency – Troy Pierce, Lael Butler
- 2:15 p.m. Lower Mississippi River, Doug Daigle
- 2:30 p.m. Discussion and next steps

Working objectives: Compile monitoring activities in the Northern Gulf of Mexico with emphasis on hypoxic areas (who, what, where, and when). Identify planned efforts. Discuss needs and gaps. Inform the NOAA Hypoxia Team, the RESTORE Council Monitoring and Assessment Work Group and the Gulf of Mexico Alliance Observation and Monitoring Community of Practice.
